

OWAISSI'S Accreditation Year

BY DONNA ZUKOWSKI

2011 was an accreditation year for

Camp Owaissi. Owaissi is a member of the BC Camping Association and this organization develops standards for camps to evaluate their operation and program via a formal assessment procedure. These standards are a motivator towards excellence for quality camps. The maximum time a camp may be accredited is four years. Once a camp has attained two consecutive three year accreditations they are eligible to be evaluated for a four year accreditation.

Included in the evaluation is the physical site, the philosophy, aims and objectives, promotional material, the staff training and training manual, staff hiring guidelines, contracts and job descriptions. The accreditation team spends the day at camp evaluating the physical site and the actual implementation of the program.

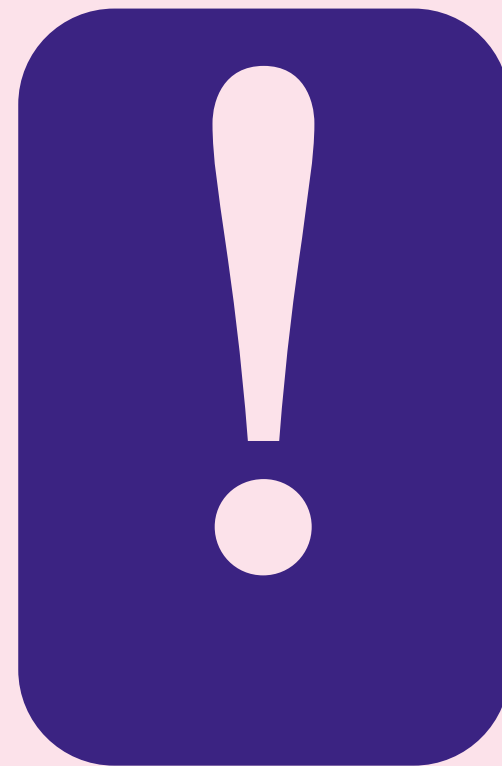

Camp Owaissi extends a big thank you to Shawn Greenhalgh and Brian Sunderland for their leadership role in maintaining and going the extra mile in helping Owaissi meet property and maintenance standards. Thank you to the many volunteers who cleaned, raked, painted and helped Owaissi to be the best it could be this year with the funds we had available.

The program and staffing team, and the Board of Directors, along with the summer staff did an amazing job in helping Owaissi meet staffing and programming accreditation standards.

Camp Owaissi has attained accreditation for a full four years!

Thank you to all those who volunteer, donate funds, and pray for this wonderful ministry so that children can continue to enjoy our beloved Owaissi.
